

W1-E3-IHS01

In-Line WAN TAP

HSSI / T3 TAP

W1-E3-IHS

The HSSI TAP is an "In-Line" TAP for usage in any half or full duplex application. Unlike competitors' our products comply in any field condition.

The „no package loss“ feature makes it ideal for security applications.

Transparent to the network, it shows traffic in real time and copies all 7 layers.

The permanent link feature guarantees network connectivity and bypasses data at power failure.

The unit has a DB26 monitor Tap connector on the backside which provides a connection to the WAN Monitoring System.

The unit is powered from the back through the DB26 connector, one LED show the presence of power.

The manual contains the DB26 pinlayout for the required cable (cable is not supplied).

Special Rack Mount brackets (optional) enable the unit to be mounted two different ways; with network interface front mounted respectively with monitor interface front mounted.

Specification, Weight & Size:

metal housing, structured black oven painted
 2x HD50 (front) + 1x DB26 (back)
 External, via D15, 8-12V stabilized
 Powerconsumption appr. 300mA
 Operating Temperature : 0°C to 50°C
 Storage Temperature : -10°C to 80°C
 Humidity : 10% to 90%, none condensing
 Main unit 11,3,x8,2x3 cm (WxDxH), 210 gr.

Designed for offering the most complete and cost effective measurement solution for the Field Service Engineer:

- *non intrusive In-Line Monitoring*
- *permanent Network Link guaranteed*
- *bypass data on power failure*
- *monitoring for all Protocol Levels*
- *no Package Loss*
- *Indicators for Power*
- *Rackmount option*

general application:

Frontside:
 LINE IN (TX+ RX)
 LINE OUT (TX + RX)
 (2x HD50's)

Backside:
 1x MONITOR OUT
 (1xDB26)

In-Line power
 (via same DB26)

optional Accessoires

- Rackmount Brackets (AM2W)
- 19" Rack Plate 1U (ARP1U-1M)
- Filling Plate (AFP1U)
